

# VelaShape III Physician Testimonials

## VelaShape III & UltraShape Combination

“In our experience, VelaShape III has proven to be the perfect technology in treating skin laxity, fat deposits and cellulite. **When combined with UltraShape treatments, the duo have presented to be the perfect procedure for body contouring.** Without a doubt, I am positive **that this combination is a huge step forward.** Not only for their high efficacy in achieving optimal results but also for their increased efficiency in treatment times. My customer satisfaction level is very high!”

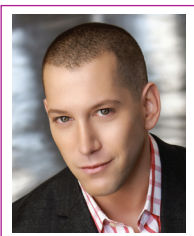

*Itziar Digón, Nutritionist at Tacha Beauty, Spain*

- “UltraShape and VelaShape combination therapy has been shown to result in **enhanced fat reduction efficacy and increased skin elasticity**”
- “When using UltraShape as the primary procedure and VelaShape as adjuvant therapy, we have observed **reduction in abdominal circumference up to ~11 cm**”
- “**UltraShape and VelaShape combination therapy provides a non-surgical alternative to liposuction**, as it can reduce denatured fat in the desired treatment area without the risks, downtime and loss of skin elasticity associated with surgery.”

*Eun Hee Kang, M.D., MY Clinic, Seoul, Korea*

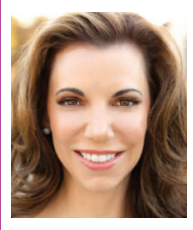

## VelaShape III & Liposuction Combination

“VelaShape is my workhorse body shaping product. It is a must have for any cosmetic or dermatologic surgeon offering surgical and non surgical body shaping. **In my practice every post-liposuction procedure gets a series of treatments with VelaShape** to improve outcomes by promoting skin tightening, preventing irregularities or asymmetries, decreasing swelling more readily and improving cellulite. **VelaShape enhances all non surgical fat reduction technologies and should be used at the same time concomitantly to improve overall results.** VelaShape is my go to for cellulite improvement, skin tightening, and a complement to body shaping procedures.”

*Jason Emer, M.D., Dermatologist, Beverly Hills, CA, USA*

## Total Body Solution

**“We’ve seen great results consistently with VelaShape.** We’ve had multiple patients **lose up to 5 centimeters** off their waist and abdomen area.”

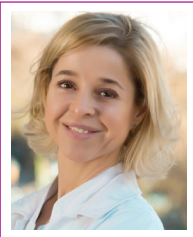

*Lori Brightman, M.D., Board Certified Dermatologist, New York, NY, USA*

**“After trying multiple technologies to treat cellulite and fat deposits, finally I am able to offer my patients a safe and effective treatment** that provides visual results from the 1st treatment session. The VelaShape III has proven to be a painless procedure and my patients are able to resume their normal activities immediately after.”

*Virginia Benitez, M.D., Humanline Banus Hospital, Spain*

## Cellulite Focus

“The VelaShape III system provides the market with a technological evolution in cellulite treatments. **I am confident that I can offer my patients a treatment that is going to improve their cellulite.** In fact, VelaShape III is a great investment for building patient loyalty, while improving our medical prestige.”

*Adriana Ribé, M.D., Ribé Clinic, Spain*
